PROFESSIONAL SUMMARY

Pre-final year ECE student with a solid grounding in electronics, programming, and systems thinking. Experienced in translating theoretical knowledge into practical solutions through projects. Seeking an internship opportunity to contribute meaningfully across any domain of Electronics & Communication, while continuously expanding technical expertise.

EDUCATION

- B.E. ECE 2023-2027 | Loyola-ICAM College of Engineering and Technology | 7.83 CGPA
- Mahindra World School (CBSE) | XII: 93.2 | X: 97.2%

TECHNICAL SKILLS

Category	Skills
Programming Languages	C (Intermediate), C++(Beginner), Python (Advanced)
Hardware & Embedded	Soldering, Sensor integration with microcontrollers, Embedded prototyping on Arduino & ESP-class boards
Tools & Simulation	CC studio, Matlab
Domains of Interest	Embedded systems, IoT, Microprocessors, AI tools

PROJECTS & INTERNSHIPS

Projects:

DATA NEST – An offline cloud storage (Aug 2025 – Feb 2026)

- Built a local Wi-Fi server on ESP32 for real-time file access.
- Demonstrated a low-cost alternative to cloud storage solutions.

VACCINEGUARD – Sustainable and cost-effective storage box (Dec 2025 – Jan 2026)

- Designed a cooling system utilizing Peltier effect as the fundamental process to preserve vaccines and other biological samples
- Precise temperature control, SMS alerts, online dashboard to supervise.

REHABPAL – A Wearable Rehab Assistant (Nov 2025 – Dec 2025)

- Developed a motion-tracking wearable using ESP32 + IMU (MPU6050).
- Streams data to an AI model to provide real-time patient feedback.

Internships:

- 2-week IN-PLANT TRAINING at EMBEDSYS (PCB design & assembly).
- 2-week INTERNSHIP at SYRMA SGS (SMT, THT, wave soldering, and backend testing)

CONTESTS & HACKATHONS

- Won **10,000 CASH PRIZE** for pitching our product OIKO conducted in LOYOLA by Cambridge
- Semi-finalists of **ATOMQUEST '25** by Atomberg (Online)
- Participated in a 24-hour hackathon at Kongu, Erode (**VACCINEGUARD**).
- Participated in **EDGE IMPULSE** hackathon by Hackerearth (**REHABPAL**)
- **Shortlisted as top 20 teams in a 3 DAY HARDWARE HACKATHON held by PCB Cupid, Bangalore.**
- **Participated in PRATHIYOGITHA'26, a 24-hour hackathon in KEC.**
- **Participated in IEEEExtreme 24, a rigorous 24-hour coding competition (Online)**

LEADERSHIP & RECOGNITION

- **Treasurer of the IEEE Student Branch**, Madras Chapter, LICET.
- Awarded merit scholarship of Rs.60,000 for scoring > 95% in grade X.
- Mentored 1st year department students in Hardware projects.
- Captain of the basketball team in both college and school.

Relevant Coursework

- AI/ML: Machine Learning and Deep Learning (IBM), NLP and Computer Vision (IBM).
- Embedded Systems: Embedded System Design with ARM (**NPTEL-ELITE**), Electronics Foundation Course (ETALVIS), 8085 Microprocessor foundation course (ETALVIS), Problem solving through programming in C (NPTEL).
- Tools: MATLAB Onramp (MATLAB).
- Language Certification: Advanced English (Grade C1) - CAMBRIDGE English
